Ex-inmate tells of 'VIPs, takal, bingo, basag' in book on jail

By Christian V. Esguerra

WHAT ails Philippine jails?

A former Quezon City jail inmate acquitted in a fraternity murder case has made disturbing revelations about the country's system of penology in a book titled "Freedom and Death Inside the Jail."

The book by Raymund Narag, a former frat-

man from the University of the Philippines, touches on key issues—from the special treatment of inmates, the inhumane conditions in the jail, to corruption—based on his experience as an inmate.

He spent six years, nine months and four days in the cramped QC jail until his acquittal in the death of Dennis Ventura in a fraternity rumble at the UP in 1994.

With little financial support from the government, the QC jail is forced to take contributions from moneyed inmates to keep the facility running.

This gives "rise to the very important *preso* (VIP) system" which is now the "norm" at the jail, Narag wrote.

Dubbed the "geese that lay golden eggs," Chinese-Filipino inmates in particular "contribute significantly to the expenses at the jail like the transportation expenses of the guards," Narag said.

"They could be called upon anytime to donate for the painting of the jail buildings and fences, the purchase of water equipment, and many other projects," he said.

The rich inmates, in turn, enjoy "privileges" such as private space in the jail annex and being excused from chores like cleaning toilets.

"To an outsider, this is corruption," Narag told the *INQUIRER*. "But within the jail culture, there is really nothing wrong with this because the jail needs money to survive."

Lack of personnel and programs for the inmates' personal development has resulted in an organizational structure complete with its own judicial system, according to Narag.

There is the *pyansador*, a supposedly well-connected person who works on inmates' bail for a fee ranging from P4,000 to P5,000.

The inmates practically run their own show.

They assemble into *pangkats* or groups that are "constantly at each other's throats," Narag said. Those with no affiliations belong to a *querna* or "outsiders" group.

Within the jail is a system of justice that requires all inmates to strictly abide by the *patakaran* or rules.

Depending on their violation and sentence, inmates could be locked up in a *bartolina* or solitary cell, stripped of their group affiliation and have their tattoos removed with a hot iron. They could also suffer the *takal* or being whacked with a paddle.

The worst punishment is the *bingo* or death sentence imposed through the *basag* or "skull-breaking flogging," Narag wrote.

Philhealth cards an election ploy, charge militants

A MILITANT group yesterday accused President Macapagal-Arroyo of using PhilHealth cards as a ploy to attract voters during the 2004 election campaign.

"The cards were given out for free to the people, but after a short time, they expired. Why does it work like that? The cards were just used for the campaign," Migrant chair Connie Regalado said in a phone interview.

Regalado said it could mean that the President was not really sincere in her efforts to help the poor.

"With the loss of hundreds of millions and the raiding of overseas Filipino workers funds for PhilHealth, we cannot but say that this regime is not really out to give health care to the people," she said.

The PhilHealth cards, which bear Ms Arroyo's picture, stirred a controversy when they were given out during the election campaign, despite explanations from Malacañang that the distribution was part of the President's commitment to providing health care to poor Filipinos.

On Friday, Philippine Health Insurance Corp. president Francisco Duque III said holders of the health cards had only until July to re-enroll in the National Health Insurance Program under the indigent members category.

Regalado also assailed the alleged transfer of P530 million from the OFW medicare trust fund handled by the Overseas Workers Welfare Administration to PhilHealth last March. She said the transfer was made possible by Executive Order No. 392.

"We wonder if this transfer was aimed at keeping up the glowing figures that Duque always proclaims in media interviews and congressional inquiries regarding PhilHealth's efficiency," she said.

Regalado voiced concerns about the administration of PhilHealth, citing reports quoting Duque as saying that its P520 million in losses from fraudulent claims constituted only about four percent of its P52 billion in earnings and that the losses were lower than those incurred by PhilHealth's forerunner, Medicare.

"There is definitely something wrong with PhilHealth if P520 million gets lost to fraudulent claims. How can claims be accessed without top-level approval?" she said.

Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The y-axis is labeled "Rate of polymerization" and ranges from 0 to 1.0. The x-axis is labeled "Concentration of inhibitor" and ranges from 0 to 1.0. The curve starts at (0, 1.0) and decreases as the concentration of the inhibitor increases, approaching zero as the concentration approaches 1.0. The curve is labeled "Rate of polymerization" and "Concentration of inhibitor".

The study's findings have several implications for practice. First, the results suggest that the use of a structured, evidence-based approach to patient assessment and management is essential for ensuring the highest quality of care. Second, the study highlights the importance of ongoing education and training for healthcare providers to stay current in their knowledge and skills. Finally, the study underscores the need for a collaborative approach to patient care, involving all members of the healthcare team in the decision-making process.

LUCAS' AN ARMED & DANGEROUS: Star Wars: Episode III: Revenge of the Sith, the merchandising machine of the 'Star Wars' movies, arrives in full force with the impending May 19 invasion by 'Star Wars Episode III: Revenge of the Sith.'

Previously announced as *Star Wars: Episode III: The Sith Lords*, the movie is the last of the 'Star Wars' trilogy. It is the final chapter of the 'Star Wars' saga, the last of the 'Star Wars' movies. It is the last of the 'Star Wars' movies, the last of the 'Star Wars' movies, the last of the 'Star Wars' movies.

With the final project in the 'Star Wars' saga, the merchandising machine of the 'Star Wars' movies, arrives in full force with the impending May 19 invasion by 'Star Wars Episode III: Revenge of the Sith.'

That being said, there are no secrets kept by Matthew Turner's *Revenge of the Sith*. The veteran 'Star Wars' novelist takes us the light saber after several previous novelizations by Terry Brooks (the 'Shogakukan' books) and R.A. Salvatore (the 'Dark Sun' series), as the last two 'Episodes' novels were usually better than the movies.

The ability to expand on Lucas's story and dialogue, United screenplays, usually the capacity for getting inside the characters' heads and reading the narrative towards a more literary direction, make these novels much more interesting. (I am sure, they are much more interesting.)

The book

This being said, Turner's *'Sith'* novel is by far the best of the three novelizations.
